

Application Serial No. 09/934,218  
Attorney's Docket No.:13970-004001

REMARKS

Reconsideration and allowance of the above-referenced application are respectfully requested.

Initially, the indication the claims 5-7, 9-12, 14-17, 19 and 20 are allowed is appreciatively noted. These claims are retained. The only claims remaining rejected, therefore, are claims 1-4, and 13.

Claim 1 was rejected based on the provisional not supporting the specific glasses as claimed. In response, claim 1 has been amended to simply recite "a glass substrate". This is certainly supported in the provisional application, and claim 1 should hence be allowable.

Claims 2 and 13 are canceled to obviate the issue about 25nA. Claim 8 is canceled to obviate the issue of "at least 20kv."

Hence, this should place the claims in condition for allowance. A formal notice to that effect is respectfully solicited

It is believed that all of the pending claims have been addressed in this paper. However, failure to address a specific rejection, issue or comment, does not signify agreement with or concession of that rejection, issue or comment. In addition, because the arguments made above are not intended to be

exhaustive, there may be reasons for patentability of any or all pending claims (or other claims) that have not been expressed. Finally, nothing in this paper should be construed as an intent to concede any issue with regard to any claim, except as specifically stated in this paper, and the amendment of any claim does not necessarily signify concession of unpatentability of the claim prior to its amendment.

In view of the above amendments and remarks, therefore, all of the claims should be in condition for allowance. A formal notice to that effect is respectfully solicited.

Applicant asks that all claims be allowed. Please apply any other charges or credits to Deposit Account No. 06-1050.

Respectfully submitted,
